

SESSION GUIDE

Welcome to Your Equine Adventure!

I am thrilled to capture the beauty and bond between you and your four-legged friend.

Here's a guide to ensure your lifestyle equestrian session is a memorable experience:

1. Session Duration:

Highly recommend opting for a 45-minute or longer session to allow ample time for authentic moments and various settings.

2. Preparing Your Horse:

Groom and clean your horse, making them look their best. Brush their mane and tail for that extra touch of elegance.

3. Wardrobe Tips:

Coordinate your attire with your equine companion in earthy tones. Avoid black, white, huge patterns, or logos to keep the focus on the bond you share.

4. Location Options:

Choose between your property, agistment, or a public place as the backdrop for your session. Each location offers a unique charm to tell your story.

5. Group Sessions:

Feeling adventurous? Gather your fellow equestrians for a group session! Hit the trails or enjoy beach rides with your best friends. Group sessions are a fantastic way to capture shared joy and camaraderie.

6. Get in Touch:

Ready to embark on this equine adventure? Just hit me up to discuss your preferences and plan the perfect session for you and your horse.
